MXI Security™ Stealth MXP™ and Stealth MXP™ Passport Certified by SAFE-BioPharma™ Association

Montreal, Canada – Tuesday, May 13, 2008 – MXI Security™, the leader in superior managed portable security solutions, today announced that its Stealth MXP and Stealth MXP™ Passport portable security devices have been certified under the SAFE-BioPharma Product Certification Program (SPCP). SAFE-BioPharma Association is a nonprofit association that created and manages the SAFE-BioPharma™ digital identity and signature standard for the pharmaceutical and healthcare industries.

This certification assures SAFE-BioPharma members that the Stealth MXP™ and Stealth MXP™ Passport conform to the SAFE-BioPharma digital identity and signature standard. The Program imposes a stringent self-testing process on SAFE-BioPharma Vendor Partner products in order to determine their compliance with the SAFE-BioPharma standard." By demonstrating that the Stealth MXP and Stealth MXP™ Passport portable security devices conform to the SAFE-BioPharma standard, MXI Security demonstrates leadership and opens the door to the biopharmaceutical and healthcare industries," said Mollie Shields-Uehling, President and CEO SAFE-BioPharma Association.

Stealth MXP™ and Stealth MXP™ Passport allow researchers, vendors, regulators, and clinicians to store SAFE-BioPharma certified identities, providing secure access to VPNs and single-sign on applications. MXI Security devices, available in FIPS 140-2 Level 2 validated versions, allow its health and science clients to protect their critical data with up to three-factor authentication and AES 256-bit hardware encryption

"As demonstrated through our strong presence in various health care and life sciences initiatives, MXI Security solutions will play a key role in allowing SAFE-BioPharma member companies to protect their confidential data and access to critical resources," said Lawrence Reusing, Chief Executive Officer for MXI Security. "Inclusion in the SAFE-BioPharma Product Certification Program further confirms MXI Security's commitment to the industry."

Using MXI Security's ACCESS Enterprise™ device lifecycle management solution, healthcare and life sciences firms will now be able to seamlessly issue and manage SAFE-BioPharma credentials onto the award winning Stealth MXP™ biometric security devices.

About SAFE-BioPharma Association

SAFE-BioPharma Association is the non-profit association that created and manages

the SAFE-BioPharma™ digital identity and signature standard for the pharmaceutical and healthcare industries. The SAFE-BioPharma industry standard is used to mitigate legal, regulatory and other business risk associated with business-to-business and business-to-regulator electronic transactions. It facilitates interoperability by providing a secure, enforceable, and regulatory-compliant way to verify identities of parties involved in electronic transactions. SAFE-BioPharma's vision is to be a catalyst in transforming the biopharmaceutical and healthcare communities to a fully electronic business environment by 2012. The Association's members include Amgen, AstraZeneca, Bristol-Myers Squibb, Genzyme, GlaxoSmithKline, Johnson & Johnson, Merck, Pfizer, Procter & Gamble, Roche and Sanofi-Aventis. For more information, visit www.safe-biopharma.org.

SAFE-BioPharma™ is a trademark of SAFE-BioPharma Association. Any use of this trademark requires approval from SAFE-BioPharma Association.

About MXI Security

MXI Security™ leads the way in providing superior managed portable security solutions designed to meet the highest security and privacy standards of even the most demanding customers.

MXI Security solutions combine the power of strong user authentication, digital identity and data encryption to protect access to sensitive information and systems.

Easy to manage and transparent to the end user, MXI Security solutions enable organizations to satisfy multiple security needs with a single device, facilitating greater mobility without compromising security.
