

Network Products Guide names Stealth MXP™ winner of the 2008 Outstanding Award in World's Best Security Products category

Stealth MXP Gains the Highest Trust of Customers Worldwide

Santa Clara, CA – January 31, 2008 MXI Security announced today that Network Products Guide, a Silicon Valley Communications publication and the world's leading publication on technologies and solutions, has named Stealth MXP a winner of the 2008 Outstanding Awards in World's Best Security Products category. This customer trust honor is the greatest endorsement to the fact that Stealth MXP is ahead of the curve when it comes to the best-of-the-best products that can provide the highest security for Portable Security Solutions with strong user authentication, data encryption and digital identity management which protects access to sensitive information and systems.

Winners were honored in the heart of Silicon Valley at an award ceremony held during Technosium 2008 Conference and Expo which is supported by Silicon Valley Communications, San Jose Mercury News - The Newspaper of Silicon Valley, Wi-Fi Alliance, Trusted Computing Group, Information Security Professionals Association, Network Products Guide, Personal Broadband Industry Association, Covenant, Wireless Communications Alliance, Info Security Products Guide, and Stanford Graduate School of Business. For more details please visit www.technosium.com

MXI Security's fully managed portable security solutions ensure the integrity of sensitive data in mobile environments. Stealth MXP™ is FIPS 140-2 Level 2 validated, protecting up to 4GB's of data on the move with transparent embedded hardware encryption (256-bit AES) and strong 3 factor authentication (biometric, password or both). A single MXP device can satisfy many of the security needs of an enterprise including strong authentication, public key cryptography for email signing and file encryption, digital identities for network logins and single sign on, as well as portable 3 factor authentication for remote access.

"It's time for technology companies to focus on innovation and growth now," says Rake Narang, Editor-in-Chief of Network Products Guide. "Product innovation and customer trust are key to trouncing global economy uncertainties in 2008. We are pleased to honor Stealth MXP as winner for 2008 and all the finalists who participated."

"Network Products Guide's recognition of Stealth MXP further validates our product as excellence-in-class. MXI Security is proud to accept the title of the World's Best Security Product for its Stealth MXP and is committed to developing portable security solutions that simplify and secure your world." says Lawrence Reusing, CEO.

About Network Products Guide Awards

Network Products Guide, published by Silicon Valley Communications, plays a vital role in keeping end-users informed of the choices they can make when it comes to security, networking, wireless, storage and software. You will discover a wealth of information in this guide including tomorrow's technology today, best deployment scenarios, people and technologies and independent product evaluations that facilitate in making the most pertinent IT decisions. The Network Products Guide Awards recognize and honor excellence in all areas of information technology. To learn more, visit www.networkproductsguide.com

About MXI Security

MXI Security™ leads the way in providing superior managed portable security solutions designed to meet the highest security and privacy standards of even the most demanding customers.

MXI Security solutions combine the power of strong user authentication, digital identity and data encryption to protect access to sensitive information and systems.

Easy to manage and transparent to the end user, MXI Security solutions enable organizations to satisfy multiple security needs with a single device, facilitating greater mobility without compromising security.
